Executive Summary

Data Engineer and AWS Certified Solutions Architect building terabyte-scale ELT pipelines and distributed lakehouse platforms using **PySpark, Databricks, dbt, Snowflake**, and **AWS** to cut query latency and enterprise cloud spend.

Professional Experience

Deloitte **Sept. 2025 – Present**
Data Associate Engineer *Hyderabad, India*

- Architected high-throughput ELT pipelines using **dbt, Snowflake, and Databricks** to integrate enterprise ERP systems (**SAP, Oracle**), establishing a centralized lakehouse architecture for **150+ cross-functional teams**.
- Spearheaded migration of legacy on-premise workloads to **AWS cloud architecture**, tuning cluster compute to reduce pipeline latency by **65%** and saving **$45,000+** in recurring annual cloud spend.
- Engineered fault-tolerant data pipelines processing **5TB+ of financial records** daily with automated validation checks, raising end-to-end data accuracy to **99.9%**.
- Built optimized **Power BI** semantic models backed by dimensional data marts, eliminating manual analyst reporting and reclaiming **20+ stakeholder hours per week**.

Prorigo Software **Jan. 2025 – June 2025**
Python Developer (Internship) *Pune, India*

- Developed a distributed extraction pipeline leveraging **OCR and deep learning**, yielding **98% extraction accuracy** and eliminating **500+ hours** of manual entry per month.

Toshiba Mitsubishi-EIC India **Aug. 2023 – Oct. 2023**
AI Developer (Internship) *Hyderabad, India*

- Containerized an enterprise **NLP query engine** using **Docker** and LangChain with automated **CI/CD deployments**, driving an **83% reduction** in IT ticket resolution turnaround.

Technical Expertise

- **Data Engineering & Cloud:** Databricks, PySpark, AWS (S3, Redshift, EC2), Snowflake, dbt, Apache Airflow, Apache Kafka, Delta Lake, Star/Snowflake Schema
- **Languages & Storage:** Python, SQL, DuckDB, Redis, FastAPI, Streamlit
- **DevOps & Infrastructure:** Docker, Terraform, CI/CD (GitHub Actions), Microservices Architecture
- **Enterprise Systems & BI:** SAP, Oracle ERP, Power BI, Tableau, Automated Data Quality Frameworks

Key Engineering Projects

Enterprise Audit Data Lake | *Python, DuckDB, Databricks, AWS S3, Docker*

- Engineered an isolated, local-compute processing engine using **DuckDB and local LLMs** to parse **5M+ rows** of confidential financial transactions.
- Implemented containerized microservices for anomaly detection, eliminating cloud data ingress costs and reducing query latency by **60%**.

Real-Time Market Intelligence Engine | *Python, Apache Airflow, REST APIs, Redis*

- Deployed an automated data ingestion platform orchestrated with **Apache Airflow**, streaming continuous updates across **1,000+ daily listings**.
- Integrated **Redis caching** layer and indexed querying patterns, sustaining a **300% concurrent traffic spike** with sub-second response times.

Education

Vellore Institute of Technology (VIT), Vellore **July 2021 – July 2025**
Bachelor of Technology in Computer Science and Engineering *CGPA: 8.68 / 10.0*

Certifications, Leadership & Publications

- **AWS Certified Solutions Architect – Associate:** Amazon Web Services (Dec. 2025).
- **Manager (Sports, Finance & Stalls) – Riviera '23:** Managed operations, vendor stalls, and financial budgeting for VIT's annual international cultural and sports festival.
- **Research Publication:** *A Comparative Analysis of Web 3.0, Web 2.0, and Web 1.0* (Inderscience).
